Hi, I am from a town called North Easton,MA,USA, about 30-35 minutes south of Boston,MA,USA. I grew up in Albany,NY,USA but live here now. My husband is from Derby,England. I am taking this class as a humanity, since I'm mostly technical in background and work experience, and I usually take one humanity to complement my technical learning as well. I've only taken one other humanity from the international community, about a year ago, and that was International Human Rights. The rest have been taken online in the USA. I'm unemployed and have young kids right now, so I've been building my skills but often try to include business, economic or law as a course while doing that, since it's important in technical business and to be aware of the issues affecting all of our human rights. So I'm looking forward to learning more about EU Business Law with you all. Best of luck to everyone.
